

PRODUCT DESCRIPTION

The Insured MANUFACTURED PRODUCT(S) are the methods, machines, articles of manufacture, compositions of matter, including systems, procedures, functions and features, which make actual the functionalities enumerated below (the "Insured Functionalities") where the Insured Functionalities are accessed either by reference to a Universal Resource Locator containing one of the domain names enumerated below (the "Insured Domains") or accessed through one or more of the mobile device applications enumerated below (the "Insured Apps").

Insured Domains:

1. [List of Domain Names]

Insured Apps:

1. [List of Applications]

Insured Functionalities:

1. [List of Functionalities]

Combined Usage Severance:

This Policy will only respond to CIVIL PROCEEDING(S) alleging INFRINGEMENT by Insured MANUFACTURED PRODUCT(S) that incorporate the above Insured Functionalities if the Insured Functionalities are specifically named or unambiguously identified as an element or step in the allegations of INFRINGEMENT.

IMPORTANT THINGS TO NOTE

- The above is only an example that demonstrates how broad coverage can be with this Policy. Your coverage may differ depending on your needs and the needs of your clients.
- An actual date will replace [the binding date of this Policy].
- You can request alterations to the product description at any time during the Policy term.
- Your clients can be added to the Policy by endorsement, at which point they will be referred to as 'Named Insureds'.
- You can request that a client be added to the Policy any time during the policy term.
- Individual domains, apps and functionality can be listed for greater clarity of coverage and control of pricing.
- An underwriter will work directly with you to make sure that your concerns are covered, and that the language used is acceptable to all parties.
